Build Your Career and So Much More

For many of our team members, the journey begins with an internship. It's a chance to gain hands-on experience, work on real projects, and learn from mentors who are eager to help you grow. What starts as a first step often becomes a rewarding career, built on strong relationships, exciting challenges, and opportunities to make a difference.

At Cushing Terrell, you'll find more than opportunity. You'll find community. One where learning, growth, and collaboration are part of everyday life. Each day, we work together to ensure we're not only a great place to work but also a place where people can realize their full potential.

Experience

Cushing Terrell is known for its holistic, integrated design approach, leveraging the skills and expertise of more than 30 technical disciplines to form teams that can tackle any design challenge.

With our disciplines working side by side, sharing individual know-how and thriving on the energy inspired by collaboration, we support a wide range of projects in seven market sectors, including: Commercial, Education, Government, Healthcare, Infrastructure, Residential, and Retail.

Employee Benefits

Cushing Terrell's benefits package is an extension of our company beliefs. We offer a holistic package that takes into account both individual and family needs.
